

PROFILE SUMMARY

Full-Stack Developer skilled in **Java, Spring Boot, Hibernate, REST APIs, HTML, CSS, JS**, and **MySQL**, with experience in building scalable projects like **Neural Knowledge, News AI App** and **Book App**. Published research with **Springer Nature** and certified in **Web Development (Udemy)**. Strong in **problem-solving, teamwork, and adaptability**.

EDUCATION

B. tech (CSE)	Ilmt college of Engineering	Percentage : 80.12%	2023-2027
XII	Sn College Shamaal Khaira	Percentage : 77.4%	2021-2023
X	Children Garden Public School	Percentage : 78.6%	2021

PROJECTS

Neural Knowledge : (jun-2025 – mar-2025)

- Developed a PDF-based Question Answering system using Spring Boot and Spring AI, enabling users to upload documents and get accurate answers directly from PDF content.
- Integrated Spring Security to implement authentication and authorization, ensuring secure access to document upload and AI-powered query APIs.
- Designed and exposed RESTful APIs for PDF processing, text extraction, embeddings generation, and intelligent query handling with scalable backend architecture.
- Technology used : Spring Boot, Spring MVC, Spring AI, Spring Security, RESTful APIs, Spring JPA, JWT, OAuth2, Login, SQL

News AI App : (march-2025 – aug-2025)

- Developed an AI-powered fake news analysis system that analyzes user-submitted news articles and generates credibility scores and summaries, with complete user-wise history tracking.
- Implemented secure user authentication and authorization using Spring Security, including JWT-based password reset, OAuth2 login, and session management.
- Designed and integrated REST & MVC controllers for news analysis, dashboard management, user profile handling, email notifications, and file-based profile updates using Spring Boot.
- Technology used : Spring Boot, Spring AI, Spring Security, Spring JPA, Spring Mail, REST APIs, Thymeleaf, SQL

Book App : (sep-2024 – jun-2025)

- Built a Book Management App with add, update, delete, search, view, and PDF download features.
- Implemented secure login using Spring Boot and Spring Security.
- Technology used : spring boot, Spring MVC, Spring JPA, Spring Security, SQL

SKILLS

Programming Language Fundamentals: - C, C++, python, Java, JavaScript.

Core Subject :- DBMS, CN, OS.

Back-end Development :- Java, JDBC, Hibernate, Servlet, Spring Security, Spring JPA, Spring MVC, Spring AI, Spring Boot.

Front-end Development:- HTML, CSS , JS, Jsp, Thymeleaf.

Tools:- Git, GitHub.

Databases:- MySQL, Hibernate, JPA, JDBC.

API Development:- REST API, Microservices.

Soft Skills: - Problem Solving, Critical Thinking, Teamwork, Adaptability, Leadership, Time Management

CERTIFICATIONS

- Wb Development (Udemy) reference number: 0004.
- Bootcamp
- AWS
- Adv Java+ Spring ,Spring boot Framework.

ACHIEVEMENTS

- **Research Publication** : The Impact of Artificial Intelligence in Modern Education Practices
- Smart Campus Placement Using Analytics For Student Performance
